Eric-

Thanks for putting these in KML format. Just note there are two worksheets in the workbook.

See the attached list per TCEQ. These are the state's priority targets going forward.

John,

See email below and attached list. Please note that coordinates for the Chevron Phillips Cedar Bayou facility are on a second tab. Please let me know if you have questions or need more information.

Draft/Deliberative/Confidential

Anthony,

Attached are a list of potential ASPECT flyover targets that were identified by R12. We have included the lat/long for both the facility and the specific tank(s) that were cited in the TCEQ's investigator incident reports. In addition to the targets on this list, we'd also like to keep Valero Houston and the Manchester area in the flight queue for now. I tried to contact the gentleman from EPA that I spoke with last night, but only got his voicemail (don't have his email), so if you can get this list in the right hands we'd appreciate it. Please let me know if you need more info or have questions.

Cory
